### THE MEET

Colleges will be assigned to North or South Divisions. Each college in a division will swim against its opponents in one large competition but scoring will be based on time comparisons for college-to-college matches. The top three colleges in each division will qualify for the championship meet.

### ELIGIBILITY

All undergraduate students and persons associated with a residential college who meet general eligibility requirements except former varsity swimming and diving award winners, current varsity, junior varsity and freshmen swimmers and divers, and graduate students are eligible to participate. Current players are defined as those who practiced or played with the team on or after December 20. Any instance involving special consideration requires a review by the Athletic Secretaries Ad-Hoc Eligibility Committee.
